

How to Use Your No-Flip Clip™

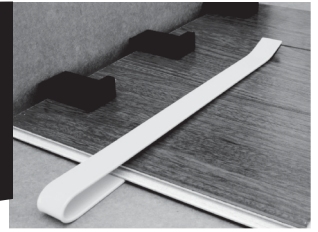

- **Insert your No Flip Clip** around the first piece of laminate in each row approx. 6 inches from the starting end to hold the board in place
- **Push the No Flip Clip all the way in**
- Your No Flip Clip will allow the laminate to move enough to install your next piece without your first piece coming undone
- Works on laminate as wide as 8" and up to 1/2" (12mm) thick

With some products you may find it useful to use additional No Flip Clips as often as every four to six boards to keep your rows in place
