

QUICKSTART GUIDE

Read Before Use!

1 Place Stair Step Scribe 2™ on stair tread with pointed ends of guides facing the riser. Loosen all four knobs and extend the Stair Step Scribe 2™. Press the guides firmly against the edges of the step with the points touching the riser, then tighten all four knobs.

2 Lift the Stair Step Scribe 2™ off the step and set it on the board to be cut. Align the points of the guides with one edge of

the board. Holding the Stair Step Scribe 2™ firmly in place, draw a line on each end of the Stair Step Scribe 2™ along the sides of the guides.

3 Cut board to drawn lines.

We recommend using the double cut method on the Magnum Shear™.

and cut to fit

Fit your board on the stair and see the fantastic results of Stair Step Scribe 2™
